DEPEW FOR FRANCE

SENATOR MAY BE SLATED FOR PARIS PORTFOLIO.

Rumored in New York Political Circles That Porter May Be Succeeded by the Millionaire Senator From New York—Porter's Retirement Will Be Voluntary if He Gives Up the Paris Post.

New York, Dec. 2.—An interesting bit of gossip to the effect that Senator Depew may succeed General Horace Porter as ambassador to France is current in the Union League and Republican Clubs. Mr. Depew was president of each of these clubs for three terms, and his avowed candidacy for re-election as senator has brought out some frank discussion about his future.

Former Governor Frank Black is popular in the Republican club. In this quarter the belief is strong that Black will succeed Depew in the United States senate, if he (Black) does not enter the cabinet, but coupled with this belief there is much talk of harmony.

This is to be obtained, according to the gossip, by giving Mr. Depew the post at Paris, and it is recalled that his present wife, whom he married abroad, spent the greater part of her life in France and Italy, forming there many social connections.

Incidentally it is mentioned that Mr. Depew's only son, Chauncey M. Depew, Jr., is to spend the next two or three years abroad, completing his education. Mr. Depew and General Porter are warm friends, and only the voluntary retirement of the latter would induce Mr. Depew to become in any sense a candidate for the post of United States ambassador to France.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

"Bohemian John" Was Not Eaten Up by a Bear as Supposed.

A special to the San Francisco Call from Redding says: John Novak, better known as "Bohemian John," is legally dead, though alive and at work at the Midas mine at Redding. For many years Novak followed hunting and trapping for a livelihood in the mountains of Idaho. He was famed for the large number of bears he had killed. One day the remains of two men were found partly destroyed by a grizzly. The bodies were buried by the county and over one grave was raised a stone bearing the inscription, "Sacred to the memory of Bohemian John, killed by a bear."

Three years after the occurrence Novak returned to Idaho, having business to transact in the town where he formerly had lived. He told his name, but no one would believe him. "Why, Bohemian John is dead; he is buried out in the cemetery," he was told.

Novak went to the cemetery, removed the headstone from the grave and raffled it. Since that time Novak

has not paid any taxes in Idaho, as dead men pay no taxes, and Novak is legally dead.

Sheep Prices Advance.

The price of yearling ewes has advanced within the last six weeks from \$1.75 to \$2.25 per head. Buyers are swarming in the northern counties looking for sheep of any kind. Only recently, it will be remembered, Allen & Lafollet of Crook county, sold their entire band to a Montana firm at a good price.—Burns Times-Herald.

Franklin County Thrives.

The recent withdrawal of four sections of land at Glade, seven miles from here, and the setting aside of \$1,000,000 by the secretary of the interior, in addition to the \$1,500,000 already appropriated for the Palouse-Pasco canal, have tended to put every business enterprise in Southern Franklin county at a premium.—Pasco Express.
